COMPETITION RULES
of
LITTLE ATHLETICS SOUTH AUSTRALIA

PREFACE

Little Athletics competitions in Australia are conducted in accordance with the Competition Rules of the IAAF currently in force with modifications provided for in these Rules.

Where it has been decided the IAAF Rules are not indicative or correct for athletes in the age groups covered by Little Athletics Australia (LAA), the IAAF Rule or part thereof has been rewritten to reflect the nature and abilities of athletes in the various age groups.

There are also a number of rules relating to Associations Championships and their processes which are not covered by IAAF and these have been listed in a separate document by each Association.

IAAF Chapters 3 – Anti-Doping & Medical and Chapter 4 – Disputes will not be used. The relevant Affiliated Associations Grievance procedures will deal with any dispute related to competitions under these Rules where processes have been exhausted through these Rules.

IAAF wording in many Rules relate to National and International situations. Where this occurs they will be interpreted as being National or Affiliated Associations situations.

For Athletes and Officials for competitions covered under these Rules, you will need to have an understanding of BOTH the IAAF Rules booklet and this document.

From time to time the IAAF and Athletics Australia will release new versions of the Rules or Technical documents. The LAA Technical Committee will assess these changes and will update these rules to reflect any changes which may occur.

4. Where mixed competitions are conducted, separate results must be declared for each sex and age group

RULE 150: VIDEO RECORDING

1. An official video recording as per the IAAF rule is not required for any Little Athletics competition.

SECTION 3 – TRACK EVENTS

RULE 161: STARTING BLOCKS

1. Starting blocks provided by the Organising Committee may be used for all races up to and including the 400 metres (including the first leg of all relays) by all athletes in the U12 and above age groups, except where this contravenes any rule(s) made by the Organising Committee and/or Venue Manager on the use of starting blocks.

RULE 162: THE START

1. The start of a race will be denoted by a line 5cm in width. In all races not run in lanes the start line will be curved, so that all the athletes start the same distance from the finish.
2. The commands used by the starter will be:
 - (a) For events up to and including 400 metres and all Relay events:
 - "On your marks"
 - "Set"
 - When all athletes are steady, the audible starting device will be activated.
 - (b) For events longer than 400 metres:
 - "On your marks"
 - When all athletes are steady, the audible starting device will be activated.
3. On the command "On your marks" or "Set", as the case may be, all athletes must without delay assume their full and final set position.
4. If the Starter is not satisfied that all athletes are ready for the start to proceed, the Starter will order all athletes to stand up and the start procedure will recommence.
5. Any athlete making a false start will be warned. Any athlete who is responsible for two false start will be disqualified.
6. The Starter or Recaller(s), who are of the opinion that the start was not a fair one, will recall the athletes by using an audible starting device.
7. In relay events the contacting of the ground by the baton when held in the hand in a crouch starting position will not be subject to penalty.

False Start

8. The following will/may constitute a false/unfair start:
 - (a) Failure to comply with Rule 162.3 after a reasonable time,
 - (b) An athlete through action or noise disturbs other athletes in the race after the command "On your marks",
 - (c) If an athlete leaves their mark with hand or foot after the words "On your marks" or "Set" as the case may be, and before the actual sound of the starting device,
 - (d) The Starter will warn any athlete(s) who, in their opinion, were responsible for the false start. This may result in more than one athlete being warned. If the unfair start is not caused by an athlete, no warnings will be given,

Note: In practice, when one or more athletes make a false start, others are inclined to follow and strictly speaking, an athlete who does so follow has also made a false start.

 - (e) Using a starting technique that is not appropriate for the age group and/or event,
 - (f) The dropping of a relay baton by an athlete during a start of a relay event will not constitute a false or unfair start.

Starting Techniques

9. Standing Start: A standing start may be used by all athletes in all events.
10. Crouch Start: A crouch start may be used for all races up to and including the 400 metres (including the first leg of all relays).
 - (a) One knee must be in contact with the ground in the "On your marks" position.
 - (b) In a crouch start, with or without starting blocks, both hands must be in contact with the ground when the athlete is in the "Set" position.

RULE 163: THE RACE

As per IAAF Rule 163, with the following exceptions:

IAAF Rule 163.3 (b) (Lane Infringements) (last sentence)

3. (b) ...Except as stated in IAAF Rule 163.4, if the Referee is satisfied, on the report of a Judge or Umpire or otherwise, that an athlete has violated this Rule, the Referee for U9 to U11 age groups, may disqualify the athlete or change the order of finishing on the Judges result sheet.
for U12 and above age groups, will disqualify the athlete.

IAAF Rule 163.8 to IAAF Rule 163.13: Wind measurements are not applicable for any competition held under Rule 1.

RULE 165: TIMING AND PHOTO FINISH

1. Two alternative methods of timekeeping will be recognised:
 - (a) Hand Timing obtained from watches or electronic gates with a manual start.
 - (b) Fully Automatic Timing obtained from either photo finish systems or electronic gates with automatic start.
2. The time will be taken to the moment at which any part of the body of an athlete (i.e. the torso as distinguished from the head, neck, arms, legs, hands or feet) reaches the vertical plane of the nearer edge of the finish line.
3. Times for all athletes will be recorded.

Hand Timing

4. Timekeepers will use manually operated electronic timers with digital readouts. All such timing devices are termed "watches" for the purpose of the Rules.
5. Watches will be started by the timekeepers and all times recorded will be deemed manual.
6. The time must be taken from the flash/smoke of the audible starting device.
7. Three official timekeepers (one of whom must be the Chief Timekeeper) and one or two additional timekeepers will record the performance of the first athlete(s) across the finish line. The performances recorded by the additional timekeepers' watches will not be considered unless one or more of the official timekeepers' watches fails to record the performance correctly, in which case the additional timekeepers' watch will be called upon, in such order as has been decided previously, so that in all the races, three watches should have recorded the official time for the first athlete(s) crossing the finish line.
8. For all hand-timed races, times will be read and recorded as follows:
 - (a) For races on the track, unless the time is an exact 0.1 second, the time will be converted and recorded to the next longer 0.1 second, e.g. 10.11 will be recorded as 10.2.
9. If, after converting as indicated above, two of the watches agree, the performance shown by the two watches will be the official time. If all three watches disagree, the middle performance will be the official time.

Electronic Timing System – Manual Start

10. The timing system will be started manually in close proximity to the timekeepers and all times recorded will be deemed manual.

Fully Automatic Timing and Photo Finish System

11. Where a fully automatic minimum dual beam or equivalent electronic timing system is in use (i.e. the timing system is automatically activated by the starting device and each athlete's/team's time is automatically recorded as they cross the finish line) the finishing order, providing times are not equal (see Rule 126.2), will be determined using the official times and all times recorded will be deemed electronic.

Timing Systems in Heats

12. Only one system of timing will be in operation for all heats of each track event/discipline for any single age group.

RULE 166: SEEDINGS, DRAWS AND QUALIFICATIONS IN TRACK EVENTS

As per IAAF Rule 166, with the following exceptions:

IAAF Rule 166.2 & IAAF Rule 166.3

Rounds and Heats

1. For events up to 400m and Relays
 - (a) State Relay Championships
First place in each heat, with remaining lanes filled by next fastest teams based on times.
 - (b) State Individual Championships
 - 2 Heats - First three athletes in each heat, plus the next two fastest times
 - 3 Heats - First two athletes in each heat, plus the next two fastest times
 - 4 or more heats - First athlete in each heat, with remaining lanes filled by next fastest athletes based on times

Note: Where there are equal fastest times that exceed the maximum number of advancements, placing will take precedence.

2. For 800m events
 - (a) Heats will be drawn with up to two athletes per lane.

Ranking and Composition of Heats

3. If Best Performances are provided, competitors will be seeded. If no Best Performances are provided, competitors will be randomly drawn into heats.
4. Lanes for heats shall be randomly drawn.
5. Where there are more lanes available than athletes in a heat, the inside lane should always remain free.

RULE 168: HURDLE RACES

1. The hurdle must be made of metal with the top bar made of wood or other suitable material. Hurdles must consist of two feet and two uprights supporting a cross-bar (see Diagram 1).
2. Hurdles must be of the collapsible type. (Collapsible type means when a hurdle is knocked down it lays flat on the track without any part of the hurdle protruding).

Note: For Centres and Clubs, hurdles must be transitioned to the collapsible type by the year 2020.

3. The hurdle cross-bar must be adjustable in height. The cross-bar must be 65-75mm high, 10-30mm wide and between 1170 and 1200mm in length. The end of the cross-bar must project 25mm to 75mm outside the hurdle frame upright.
4. The approach side of each cross-bar must be painted white and black in colour or with other strong distinctive contrasting colours (and also in contrast with the surrounding environment). The contrasting stripes must be 270-280mm from the mid-point of the cross-bar and must be 95-105mm wide.

Diagram 1 : Hurdle Specifications

5. Each hurdle must be placed on the track so that the feet will be on the side of the approach by the athlete. The hurdle must be placed on the track so that the edge of the cross-bar nearest the approaching athlete coincides with the track mark nearest the athlete.

Note: For collapsible type hurdles the feet may be extended past the uprights

6. All races must be run entirely in lanes and each athlete must remain entirely within their own lane throughout the race. An athlete who trails a foot or leg alongside any hurdle, or jumps any hurdle not in their own lane or in the opinion of the Referee, deliberately knocks down any hurdle by hand or foot will be disqualified. The unintentional knocking down of hurdles may not disqualify nor prevent a record being set.
7. Refer to LASA Rule 601: Equipment Specifications, for hurdle heights and track placement of hurdles for all age groups.

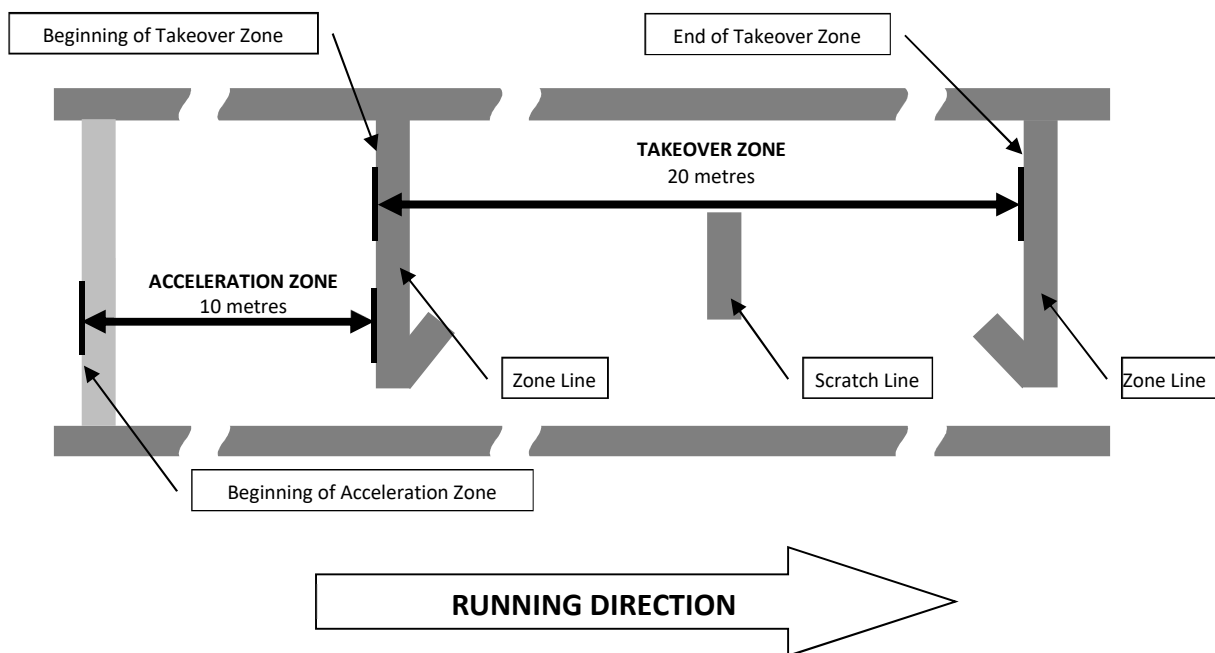

RULE 170: RELAY RACES

Events

- The standard distances shall be 4x100m, 4x200m and Medley Relay (100m, 100m, 200m, 400m).

Takeover Zone

- Lines 5cm wide will be drawn 10m before and after the scratch line to denote the takeover zone within which lines the baton must be passed.
- The takeover zone will start and finish at the edges of the zone lines nearest the start line in the running direction.

Acceleration Zone

- The acceleration zone is indicated by a distinctive mark ten metres before the beginning of the takeover zone where the receiving athlete may begin to accelerate prior to commencing the baton change.
- The acceleration zone is only used during laned baton changes.
- The acceleration zone may only be used in the 4x100m event. The receiving athlete must take up their starting position **WITHIN** the takeover zone or acceleration zone as permitted.

Breakline

- The breakline must be an arced line marked after the bend, 50mm wide, across all lanes other than lane 1. To assist athletes identify the breakline, small cones or prisms, 50mm x 50mm and no more than 0.15m high, preferably of different colour from the breakline and the lane lines, will be placed on the lane lines immediately before the intersection of the lane lines and the breakline. The breakline is the point where the athletes may leave their respective lanes and cross to the inside of the track.

Note: In addition to the small cones or prisms, the breakline may also be marked with flags on either side of the track.

- The position of the breakline will be:
 - 4 x 200m: at the beginning of the back straight on the third leg of the race.
 - Medley: at the beginning of the front straight on the third leg of the race.

The Race

9. An athlete must not run more than one section (leg) of a relay race.
10. The baton must only be carried in the hand during the race.
11. If the baton is dropped it must be recovered by the athlete who dropped it. If an athlete other than the athlete who dropped the baton, recovers the baton, the team may be disqualified. The athlete may leave their lane if necessary to retrieve the baton provided they do not impede another athlete (See Rule 163 and IAAF Rule 163.3)
12. If during the race an athlete takes or picks up the baton of another team, his team shall be disqualified. The other team should not be penalised unless an advantage is obtained.

Check Marks

13. When all or the first portion of a relay race is being run in lanes, athletes may place one check-mark (supplied or approved by the Organising Committee) within the athletes own lane and clear of the lines marking the lane. No other check-mark may be used.

All Baton Changes

14. The passing of the baton must take place within the takeover zone. The passing of the baton commences when it is first touched by the receiving athlete and is complete at the moment it is in the hand of the receiving athlete only. The position of the baton is decisive, not the athlete's body, head, feet or legs.
15. Prior to the race being under the Starter's control an athlete will be given reasonable time to set their check mark and take up their starting position. Any athlete who wastes time will be warned and if the warning is ignored is liable to disqualification.
16. Once the race is under the Starter's control an athlete is liable to be disqualified if they exit the rear of the takeover or acceleration zone.
17. Officials must not physically assist athletes during baton changes.

Laned Baton Changes

18. Incoming athletes, on completing the baton change, must stay in their lanes until told by the Chief Marshall to clear the track.

Unlaned Baton Changes

19. Receiving athletes will be lined up in lane draw order in a position two metres inside the line denoting the beginning of the takeover zone. The position will be indicated by the placement of cones on the inside and outside of the track.
20. Incoming athletes, on completing the baton change, must clear the track quickly endeavouring to ensure that no interference is caused to other athletes.

Baton Structure

21. The baton must be a single piece smooth hollow tube, circular in cross-section made of a rigid material. Batons should be coloured to enhance visibility.
22. The following table lists the conformance specifications for each individual relay baton:

Diameter		Length		Weight	
Min	Max	Min	Max	Min	Max
30mm	34mm	280mm	300mm	50gm	60gm
38mm	42mm	280mm	300mm	80gm	80gm

Reporting Procedure For Officials

23. Infractions observed by any officials will be noted on a pre-printed form. These forms will be collected by the Referee to enable the Referee to adjudicate on the infringement.

SECTION 4 – FIELD EVENTS

The IAAF Rules will be observed for all Field Events. Exceptions to the Rules will be listed in this section.

RULE 180: GENERAL CONDITIONS

As per IAAF Rule 180.

A. VERTICAL JUMPS

RULE 181: GENERAL CONDITIONS

As per IAAF Rule 181, with the following exceptions:

IAAF Rule 181.4 & IAAF Rule 181.7

4. Unless there is only one athlete remaining and they have won the competition:
- (a) The bar must never be raised by less than 2cm in the High Jump after each round of trials; and
 - (b) The increment of the raising of the bar must never increase; and
 - (c) The bar must be raised after each round of trials in increments depending on the number of athletes remaining in the competition, as per the following table:

No of Athletes	Increment
Greater than 6	5cm
6 or less	3cm
3 or less	2cm

Note: The first raise of the bar will be 5cm regardless of the number of athletes in the competition.

These Rules 181.4(a), (b) and (c) will not apply once the athletes still competing agree to raise it to a State Best Performance height directly.

After an athlete has won the competition, the height or heights to which the bar is raised will be decided by the athlete, in consultation with the relevant Chief Judge or Referee.

Note: This does not apply for a Multi-Events Competition.

In a Multi-Events Competition held under Rule 1, each increase will be uniformly 3cm in the High Jump throughout the competition.

RULE 182: HIGH JUMP

As per IAAF Rule 182, with the following exceptions:

IAAF Rule 182.1, IAAF Rule 182.2, IAAF Rule 182.6 & IAAF Rule 182.10

Competition

1. **In addition to Rule 182.1, for U8, U9 & U10 age groups only:**
The athlete must take off from one foot, clear the bar in a vertical position and the first contact made on the landing area must be made by one or two feet.
2. **In addition to Rule 182.2, for U8, U9 & U10 age groups only:**
An athlete also fouls if:
 - (a) The athlete's head clears the bar before the leading foot (the foot closest to the bar at take-off).

 - (c) On landing, the first contact with the landing area is not made by one or both feet.

Apparatus

6. The distance between the uprights must not be less than 3.62m nor more than 4.06m.

Landing Area

10. The following landing areas will be used for the relevant age groups:
- (a) U8 - U10 Age Groups: For all competitions, the landing area should be not smaller than 5m long x 3m wide, and between 0.15m and 0.20m high behind the vertical plane of the crossbar.
 - (b) U11 and above Age Groups: For all competitions, the landing area should be not smaller than 5m long x 3m wide x 0.5m high behind the vertical plane of the crossbar.
- Note 2:** The landing area may be comprised of one or more mats - ideally secured together by means of ring/hook, Velcro or other suitable fastener.
- Note 3:** Little Athletics Australia recommends the landing area be 0.5m or higher as its preferred height. Older mats 0.4m high may continue to be used.
- Note 4:** For centres, the 5m x 3m mat will not be mandatory until 2019/2020 season.

The take-off board must measure 1.22m x 0.2m.

The take-off may be marked by a board sunk level with the runway, or defined by a contrasting colour to the runway surface created by using tape. The foul area may be indicated by a strip of damp sand, plasticine or other similar material.

Distance Measurements

8. The following process will be followed to measure the distances for the relevant age groups:

(a) U9 - U10 Age Groups

The measurement of each jump will be made immediately after the trial. Except in the case of Rule 184.8 (ii), all jumps must be measured from the nearest break in the landing area made by any part of the body to the front edge of the imprint made by the take-off foot.

In the case of an athlete taking off before reaching the take-off area, the jump is measured from the nearest break in the landing area made by any part of the body to the back edge of the take-off area. The measurement must be taken perpendicular to the back of the mat or its extension.

(b) U11 and above Age Groups

The measurement of each jump will be made immediately after the trial. All jumps must be measured from the nearest break in the landing area made by any part of the body to the take-off line, or take-off line extended (see Rule 185.1(f)). The measurement must be taken perpendicular to the take-off line or its extension.

As per IAAF Rule 186 with the following addition:

IAAF Rule 186.4 & 186.6**Take-off Line**

4. For all competitions defined in Rule 1, take-off lines may be set at any whole metre distance from the nearer end of the landing area. *Note: For events at SA Athletics Stadium, the fixed boards at 9m and 11m will be used for U13 and above athletes jumping from these positions. A mat will be used for all other positions.*

Change of Take-off Line

6. Athletes may change their take-off line during a competition. Athletes must notify the event officials of the change prior to the commencement of a jump.

Safety

7. For safety reasons a warning will be given to any athlete who lands less than 50cm into the pit. It will be recommended that the athlete change the take-off line. If the athlete continues to land less than 50cm into the pit after the warning, the jump will be considered a foul.

C. THROWING EVENTS

SECTION 5 – COMBINED EVENTS COMPETITION

RULE 200: COMBINED EVENTS COMPETITION

1. The Multi-Event will consist of between five and seven separate disciplines. Events consisting of five disciplines will be held on one day. Events consisting of six or more disciplines will be held on two consecutive days.
2. The events to be conducted for each age group will be determined by the organising committee with reference to the Little Athletics Australia Standard Events.

General

3. The time interval between the completion of one discipline and the start of the next will be at the discretion of the Meeting Manager, in consultation with the Chief Referee.
4. The Rules for each event constituting the competition will apply with the following exceptions:
 - (a) Field Disciplines:
 - (i) If the number of athletes competing or scheduling considerations dictates:
 - may be split across different pits or rings or;
 - different disciplines may be conducted at the same time, but when reciprocated each must occur on the same pit or ring,
 - (ii) Except for High Jump, the number of trials per athlete will be three unless advised otherwise by the Organising Committee.
 For High Jump, an athlete will only be allowed to have a maximum of 8 jumps.
 If an athlete reaches their maximum of 8 jumps the athlete must stop competing in the event
 If an athlete has three consecutive failures, regardless of the height at which any of such failures occur, the athlete will be disqualified from further jumping
 The athlete must nominate which heights they will attempt to clear during the competition
 For High Jump, a bar height of one metre will be used as the benchmark height to determine the 3cm intervals.
 - (b) Track Disciplines:
 - (i) Only heats will be conducted with points allocated to the performance obtained in the heat, i.e. finals will not be run.
 - (ii) An athlete responsible for two (2) false starts shall be disqualified.
5. Where the 800 metres is scheduled as the last discipline, if multiple heats are required for an age group, athletes will be seeded so that the last heat contains the athletes leading at the conclusion of the previous event (i.e. Heats will be run in the ranking position order as at end of previous event).
6. A Field event is considered to have begun once the first athlete has completed a trial. No athlete may join that field event after this time.
7. Points are awarded for performance and will be allocated to each athlete for each individual discipline using Scoring Tables approved by the Organising Committee.
Note: All tables have a finite lower limit and as a result an athlete may score zero points, the scoring of zero points does not however exclude an athlete from being placed.
8. An athlete failing to attempt to start or make a trial in one of the individual events will not be entitled to receive a place. It will not prohibit the athlete from competing and scoring points in subsequent events.
9. Performances and points will be posted/displayed for public viewing as soon as practicable after the completion of each individual discipline as follows:
 - (a) For the discipline, and
 - (b) As a cumulative total.

- 10.** The winner will be the athlete who obtains the highest cumulative total. In the event of a tie for any final placing athletes will be awarded equal placing.

SECTION 7 – RACE WALKING EVENTS

RULE 230: RACE WALKING

Distances

1. The standard distances for race walking events conducted on the track shall be 700m, 1100m and 1500m. For out-of-stadia events, the standard distances shall be 1km and 2km.

Definition of Race Walking

2. Race Walking is a progression of steps so taken that the walker makes contact with the ground, so that no visible (to the human eye) loss of contact occurs. The advancing leg must be straightened (i.e. not bent at the knee) from the moment of first contact with the ground until the vertical upright position.

Judging

3.
 - (a) The Chief Judge at any competition should be the highest graded Judge available.
 - (b) All the Judges will act in an individual capacity and their judgements will be based on observations made by the human eye.
 - (c) There must be one Judge less than number of red cards required for disqualification from any one Centre officiating in the same event. This ensures no one Centre has disqualification power of an athlete.

Note: This rule may be waived if there are insufficient judges available from other Centres.

 - (d) For Track Races, there should normally be a minimum of three to a maximum of six judges including the Chief Judge.
 - (e) For Road Races, there should normally be a minimum of six to a maximum of nine judges including the Chief Judge.

Chief Judge

4.
 - (a) The Chief Walk Judge will allocate the judging positions for each Judge in the race. The Chief Judge will view the start and finish of the race, and may judge from any position during the race.
 - (b) Prior to the start time of each race, the Chief Judge or their appointed assistant will identify themselves to the athletes and explain the technicalities of walk judging.

Yellow Paddle

5. When a judge is not completely satisfied that an athlete is fully complying with Rule 230.2, the judge may show the athlete a yellow paddle indicating the offence and also call out the athlete's number, and the offence observed e.g. "Caution Number 77 contact". An athlete cannot be shown a second yellow paddle by the same Judge for the same offence. Having shown a yellow paddle to an athlete, the Judge will inform the Chief Judge of the action after the race.

Note: Yellow Paddles may be given anytime during a race.

Red Cards

6. When a Judge observes an athlete failing to comply with Rule 230.2 by exhibiting visible loss of contact or a bent knee during any part of the competition, the Judge will for:
 - (a) U12 and above Age Groups: not verbally give a red card to an athlete.
 - (b) All other Age Groups: verbally give a red card to an athlete.

The judge will call out, athlete's number, and the offense observed e.g. "Red Card Number 77 contact". If a Judge believes that an athlete may not have heard the verbal red card, the Judge should repeat the verbal red card at the next sighting of the athlete.

Note: Athletes will not physically be shown a red card

The judge will note the red card on their judging sheet along with their name/signature and hand it to the Chief Judge after the race.

A judge can only red card an athlete once. If a Judge red cards an athlete more than once, only one red card will be accepted by the Chief Judge.

Disqualification

7. (a) The following number of reports (red cards) for disqualification will apply for the number of Judges officiating in the race:

NO. OF JUDGES	NO. OF RED CARDS REQUIRED FOR DISQUALIFICATION
4 to 6	3
3	2

- (c) At the conclusion of the race, if an athlete is disqualified, the Chief Judge will indicate this to the athlete verbally and give the reason for disqualification. The result of an event will only become final on the clearance of the Chief Judge and Track Referee.

Note: Disqualification will be determined solely from the written reports received by the Chief Judge. Failure of the Chief Judge to notify the athletes, or of the athlete to hear the Chief Judges notification, will not be grounds to protest the disqualification.

SECTION 9 – CROSS-COUNTRY RACES

RULE 250: CROSS-COUNTRY RACES

Distances

- The following table outlines the approximate event distances for the relevant age groups:

Age Group	Distance
U9, U10	1.5km
U11, U12	2km
U13, U14, U15	3km

The Course

- The course will be clearly marked with flags or posts. Each side of the course will have a different colour set of flags. The placement of the flags will be such that the next flags in sequence are clearly visible from the previous flags. If the course incorporates a loop which could potentially lead to confusion by the athletes, the entry to such loop will be roped off from the continuation and may be manned by officials who may direct athletes.
- The terrain should be undulating, with no high obstacles, or difficult sections.

The Start

- Where there are more athletes than can be placed in a single row, the first row will be filled with athletes placed in draw order. Second, and as necessary subsequent rows, will also be filled with athletes placed in draw order.

Assistance to Athletes

- No assistance or refreshments will be provided to athletes during the event.
- Except as in Rule 250.5, the Organising Committee may arrange to have a tortoise/hare to direct athletes along the course.

SECTION 10 – SOUTH AUSTRALIAN BEST PERFORMANCE

RULE 260: SOUTH AUSTRALIAN BEST PERFORMANCE

1. South Australian Best Performances (SBP) will be maintained for all events listed in the Standard Events table
2. For a performance to be accepted as a South Australian Best Performance the following criteria must be observed:
 - (a) The performance must be achieved at a State Championship or other approved Association controlled special meeting. This does not include normal Centre meetings, Centre Championships or Open Days.
 - (b) The claim for the performance must be submitted on an official form supplied by the Organising Committee; complete with all documentary evidence to the LASA office within twenty eight days after the event (see Rule 260.3 & 260.4).
 - (c) For Track events:

The track must conform to Rule 140.

The timing must conform to Rule 165.

Where fully automatic timing is being used (see Rule 165.10), only one time needs to be lodged with the SBP claim to be accepted.

If fully automatic timing is not being used (see Rule 165.5 to 165.8), three times must be lodged with the SBP claim to be accepted.

Times must be checked and signed by the Chief Photo Finish Operator or the Chief Timekeeper and the Referee of the meeting.

For hand time performances, the performance will be rounded to 0.1 seconds and then standardised to align to a fully automatic time as follows:

 - Distances under 400m: + 0.24 seconds
 - Distances of 400m or 4x100m relay: + 0.14 seconds
 - Distances greater than 400m: No change
 - a standardised time will be indicated with {S} or similar

Note: As of August 2015 all existing SBP Track performances will be standardised using the formulas in Rule 260 (c) (vi).
 - (d) For Field events:

All distances and heights must be checked and the recording sheet signed by the Chief Judge and Referee or Referee's delegate.

All implements and measuring apparatus must be verified for compliance with specifications or certified equipment prior to the commencement of the competition program. (Refer to IAAF Rule 137 for process for compliance of approved scientific measuring apparatus e.g. EDM devices)

The performance will be measured either by using a calibrated and certified steel tape or bar or by an approved scientific measuring apparatus, the accuracy of which has been confirmed by a qualified Measurement Judge.

The recording of a South Australian Best Performance requires the Referee to check the manner in which the trial is measured is correct and to verify the measurement of the trial using a certified tape, except where an approved scientific measuring apparatus is being used.
 - (e) Wind assistance will not be considered as a factor in determining South Australian Best Performances.
3. Claims for South Australian Best Performance will be accepted for individual events as follows:

- (a) Existing South Australian Best Performance: The number of athletes/teams in the event will not be an impediment.
- (b) New Event:
 There must be at least three athletes/teams participating.
 The SBP will be awarded at the end of the season and will take into account the best performance at all valid competitions listed in Rule 260.2(a).
 Providing the criteria at 0 & 0 above are met, Organising Committees will submit completed paperwork for new events as if it is a claim for an existing South Australian Best Performance.

In these circumstances, any replacement runner must be of the same gender as the replaced athlete and any advancement of a younger athlete is subject to the normal advancement rule.
32. An athlete substituted in to a team to replace an ill or injured athlete may do so in addition to the event(s) they have originally been selected in, providing that they do not compete in more than three events for the Championships. *Note: This only applies when replacing an athlete who has already competed during the Championships.*

Field Relays

33. Each team must compete in all events available for their age group.
34. An age group team may be made up of 4, 3, or 2 athletes as follows:
- (a) Four athletes: Each athlete is to compete in one event only
 - (b) Three athletes: One athlete competes in 2 events, others compete in 1 event
 - (c) Two athletes: Both athletes must compete in two events.
35. Athletes may not compete for more than one team.

High Jump Bar

36. The high jump bar will start at a height to ensure a recorded jump is achieved for every competing athlete.
37. The high jump bar will be raised in increments of 5 cm for the entire event.

Progression from Heats to Finals

38. Track Relays
- (a) The following teams shall progress to the final in their event:
First in each heat with the remaining lanes filled by the next fastest times
 - (b) If a tie occurs in the heats for a position in the final, and if there are sufficient lanes available all tying teams shall qualify for the final. If sufficient lanes are not available then the positions in the final will be randomly drawn.
 - (c) A list of teams to compete in a final will be posted on the windows of the grandstand approximately 30 minutes after the completion of the heats.
 - (d) Where only sufficient entries are received to fill a single heat, that event will be conducted as a straight final at the scheduled heat time.
39. Field Relays
- (a) Each athlete will receive three attempts at each field event (except high jump).

Scoring System

40. Track Relays
- (a) Points for the Teams Competition will be scored for the finals of the 4x100m and 4x200m events only.

- (b) Recreational Athletics events are not part of any scoring system.
- (c) The scoring allocation for finishing position in finals is as per the following table.

Placing	Score	Placing	Score
1 st	10	5 th	4
2 nd	8	6 th	3
3 rd	6	7 th	2
4 th	5	8 th	1

41. Field Relays

- (a) Points will be awarded for every athlete’s performance. These points contribute to their teams point score.
- (b) Points will be awarded for every place in all events. No points are awarded when an athlete records No Measure (i.e. no valid attempt).
- (c) Count-backs will be used to break any ties in an event. If a tie remains, then the tied teams will share the available points as per the following example.

If two teams tie for second place in an event, then the points available to be shared are 24 for 2nd place plus 23 for 3rd place giving a total available of 47 points. These points are then shared equally giving 23.5 points each. The next team (in fourth place) will receive the normal points for fourth place, i.e. 22 points.

Similarly, if three teams tie for fourth place in an event then they receive 21 points each and the next team (in 7th place) receives the normal 19 points for 7th place.

- (d) The team points (for an age group) are the total points over all of their events. The team with the highest total points wins the Field Relay for that age group.
- (e) In the event of a tie for total team points in an age group, and it concerns a medal position, then the performances for the tying teams in each event will be expressed as a percentage of the State Best Performance for that event. These percentages will be totalled, and the team with the higher total will take the higher place. If the tie remains, then both teams will be awarded the same place.
- (f) Team points for places in each event will be as per the following table:

Team Placing	Points Scored	Team Placing	Points Scored	Team Placing	Points Scored
1	25	10	16	19	7
2	24	11	15	20	6
3	23	12	14	21	5
4	22	13	13	22	4
5	21	14	12	23	3
6	20	15	11	24	2
7	19	16	10	25	1
8	18	17	9	> 25	1
9	17	18	8
